

NACAC IMAGINE FUND CORPORATE DONATION PROGRAM

NACAC is seeking additional support for the Imagine Fund, which funds grants for college admission and counseling professionals.

Your corporate donation will help make an impact in the college admission counseling community, and allow more counselors to attend meetings like the NACAC National Conference.

NACAC Imagine Grant Recipients

“I’m so grateful I received the Imagine Grant! I would not have been able to afford to attend my first NACAC conference had it not been for the support of this grant. As a public high school counselor working with urban low-income, first-generation students, I believe it’s critical that I provide the most up-to-date, informative, and applicable information and programming available. Unfortunately, that usually means funding my own professional development. Attending the NACAC conference allowed me to learn from colleagues who have developed and fine-tuned programs that directly support students like the ones I serve. I was also able to connect with colleagues willing to support my endeavors in building sustainable programming that can withstand budget cuts and staff changes. One such program has already been earmarked for district implementation potentially impacting an annual student population of 27,000. The ripple effect from this one investment in my professional development is immeasurable.”

—**Kelly Kruger**
Oak Grove High School (CA)

“The Imagine Grant gave me the opportunity to participate in the Guiding the Way to Inclusion Conference this year and I’m so grateful. Having the chance to network, examine current themes, discuss ideas, and get support from other professionals of color and allies was an incredible way to kick off the next recruitment cycle. I came back with a fresh perspective and new goals and hope that others are able to find the same outcomes with their professional development in the future!”

—**Heather Wofford**
Oregon State University (OR)
